Nancy,

I don't see how the pay stations have any impact on the project. As you can see in the attached photos, the pay station is across the walkway.

I also disagree that you would need a fence. I think that putting a fence would impede someone parked in the handicapped spot. Imagine the person in the white vehicle trying to open their door into a 2 foot fence. On the contrary, the concrete would allow any person exiting their vehicle extra space to get out of their vehicle. Remember, the usage will be extremely minimal.

Please provide me with dates/tiimes that your engineers are available.

I look forward to having them visit San Pedro.

Best,

Lorena Parker
